

The signing of a Cooperation Agreement between JICA-Net and the GDLN brings the power of knowledge sharing to developing countries in every corner of the globe.

## JICA-NET AND THE GDLN'S COMBINED REACH CREATES THE LARGEST DEVELOPMENT LEARNING NETWORK IN THE WORLD

DEVELOPMENT AND POVERTY REDUCTION through technical cooperation and knowledge sharing are mutual goals of the World Bank's Global Development Learning Network and the Japan International Cooperation Agency's JICA-Net.

The signing of a Cooperation Agreement in November 2004 between JICA-Net and the Tokyo Development Learning Center, established by the World Bank in cooperation with the Japanese government in June, 2004, brings the reach and resources of the two networks together to

form the world's largest development learning network.

The GDLN, facilitating development knowledge and expertise sharing, has distance learning centers in 124 locations around the world. JICA-Net has 68 educational centers worldwide integrated with JICA's global operations and focusing on technical knowledge transfer. To learn how our combined strengths can increase the impact of your work worldwide, or to enquire about participation in a program, contact the TDLC or JICA-Net. →
